PROFESSIONAL SUMMARY

High-performance Executive Assistant with 3+ years supporting founders, managing partners, and C-suite executives at venture capital firms and global consumer brands — including a current engagement as Executive Assistant to Olivier Momma, Founder and CMO of Ekster, a premium direct-to-consumer everyday carry and travel accessories brand (Certified B Corp, Amsterdam). Known for eliminating operational drag so principals can lead, invest, and close without friction. Combines sharp organizational instincts with a builder mindset: I don't just manage systems, I design and automate them. Trusted across Los Angeles, San Francisco, Amsterdam, and remote-first environments to operate with the highest level of discretion and independence.

CORE COMPETENCIES

Inbox Zero & Triage · Executive Calendar Architecture · CRM Management (8,000+ contacts) · Recruitment & Talent Screening
Project Management & Automation · Travel & Event Logistics · Executive Communications · Expense Tracking & Reporting

PROFESSIONAL EXPERIENCE

Executive Assistant to the Founder & CMO

Ekster | Amsterdam, Netherlands (Remote) | Oct 2025 – Present

- Manage inbox and calendar for Olivier Momma, Founder and CMO of Ekster — ensuring zero missed communications and a tightly structured executive schedule.
- Built and actively operate a custom referral tracking system (Minakami Referral Program) — architected the full workflow and run it on a proprietary software tool developed with AI assistance. Drive lead generation, handle invoicing, and coordinate directly with partner brands and creative agencies to keep the program running end-to-end.
- Partner directly with Olivier on brand protection and IP enforcement — identify counterfeit and replica listings of Ekster products across Shopify, third-party web-hosting platforms, Meta, and TikTok, then file DMCA, IP, and trademark infringement claims to have offending products, pages, and storefronts taken down.
- Support recruiter/sourcing work across multiple hiring pipelines — build and score structured candidate CSVs, evaluate candidates, and prepare contracts for Olivier's review.
- Deliver daily EOD reporting via a custom HTML email template and conduct competitor research to inform Olivier's strategic decisions.

Executive Assistant to the Managing Partner & Founder

Selva Ventures | Los Angeles, CA (Remote) | 2023 – 2025

- Reclaimed 10+ hours/week of executive time across inbox, calendar, and operational overhead — triaging a dual Gmail inbox (50–100 emails/day) three times daily via Inbox Zero methodology, archive folders, a "Today" folder for urgent items, and pre-drafted responses — dropping principal email time from ~90 min/day to under 20.
- Coordinated 20–35 meetings/month end-to-end with zero coordination touch from the principal — owned a nuanced Google Calendar architecture, manually scheduling virtual and in-person meetings with a 2-week lead buffer, conducting venue research for in-person syncs (cafes, restaurants, offices), and protecting deep work, lunch, and travel blocks. The principal's only involvement was a quick review for reschedules.
- Maintained a live CRM of 8,000+ contacts on Affinity — ensuring data integrity and enabling rapid relationship lookups for deal flow and investor outreach.
- Screened 200+ MBA intern applicants in a full-cycle recruitment process — compressed a high-volume pipeline into a curated shortlist for the firm's Director and Principal, and owned end-to-end candidate communications.
- Owned monthly expense consolidation and quarterly financial reporting — categorized all company expenses in Expensify by type (development, travel, research, meals) with receipts attached for items exceeding \$100, synced monthly reports against annual per-principal budgets in Excel, and compiled corporate card statements for quarterly submission to Carta on behalf of both principals.

- Led cross-functional personal and professional project management across the principal's full operational surface — planned and executed birthday parties and high-touch personal events, managed office operations and household repair coordination, and supported logistics involving the Selva team, the principal's family (spouse, children, parents), and extended personal stakeholders — operating as a single point of accountability across work and life.

“MJ punches far above the weight of a typical EA. His decision to move on from Selva Ventures is a big loss for the firm, but a big win for his next employer.”

— Kiva Dickinson, Founder & Managing Partner, Selva Ventures [Read the full recommendation on LinkedIn →](#)

Executive Assistant to the President

Meson Capital | San Francisco, CA (Remote) | 2022

- Supported the President with inbox management across Gmail and Outlook, coordinated stakeholder scheduling across Google Calendar and Trello, and built and maintained the firm's contact database on Airtable with Zapier automation for a senior-level principal.

Executive Partner

Athena | Cebu City, Philippines | 2022

- Completed Athena's rigorous EA training program, building foundational and advanced competencies across inbox management, calendar systems, travel logistics, research, CRM, and executive communications — and was selected as 1 of 3 hand-picked EAs for Athena's VIP client training track, an accelerated program that prepared me for a principal-level engagement at Meson Capital.
